

The purpose of ERGT Australia's Fire Warden (**FWAR**) course is to develop the skills and knowledge required to implement specific workplace emergency procedure in the workplace emergency procedures or specified by a person at a higher level in the emergency control organisation. This course has been developed to cover a broad range of emergencies in the workplace as considered in Australian Standard 3745-2010 Planning for Emergencies in Facilities.

This course has been designed for individuals who are required to operate as part of an emergency control organisation and may undertake work roles in a variety of industry sectors. The individuals attending the course may range from administration personnel to experienced production plant workers.

**AUTHORITY / REGULATOR**

Nationally Recognised Training is regulated by the Australian Skills Quality Authority (ASQA), which is the national regulator for Australia's vocational education and training sector.

The National Standard for the Control of Major Hazard Facilities requires operators of Major Hazard Facilities to provide training and education on emergency response. Details for these requirements can be found in National Occupational Health and Safety Commission (NOHSC) 1014(2002), sections 8 and 9.

LEARNING OUTCOMES

The expected learning outcomes for this Nationally Recognised Training unit PUAWER005B Operate as part of an emergency control organisation are:

- Respond to emergency reports, signals and warnings
- Initiate and control initial emergency response
- Anticipate the further development of emergencies
- Assist with post initial response

RECOMMENDED SKILLS & KNOWLEDGE

In order for ERGT to deliver the training and assessment in the timeframe specified for this course, it is desirable (but not mandatory) that trainees come to the course with a specific range of skills and knowledge as listed:

- Completed Company Induction training
- Have participated in workplace evacuation drills
- Understanding of workplace emergency response structure procedures (including fire extinguishers)

STRUCTURE & ASSESSMENT

This course is delivered through classroom presentations, group discussion, scenarios and case studies, demonstrations and practical activities. Trainees will demonstrate their competence through written assessment and practical assessments.

CERTIFICATION

Upon successful completion trainees will be issued with a Statement of Attainment in:
PUAWER005B Operate as part of an emergency control organisation

SKILLS MAINTENANCE

In alignment with industry expectations and to ensure ongoing competence and capability, ERGT recommends skills maintenance be conducted every 2 years.
