

ERGT Australia's Vertical Rescue (**VERT**) course is designed for individuals who work as part of an Emergency Response Team (ERT) or may be required to respond to incidents in an industrial workplace. Industrial environments may include onshore and offshore locations potentially isolated from external emergency services. Trainees may hold roles within ERTs, volunteer organisations or as part of a designated role within an organisation's structure.

The individuals attending the course could be both new and experienced workers and hold varying levels of responsibility from team member to team leader.

**OUTCOMES:**

Statement of Attainment in:

PUASAR032A Undertake vertical rescue

PUASAR022A Participate in a rescue operation

**LOCATIONS:** Perth, Melbourne, Darwin & Onsite

**DURATION:** 4 days

**CONTACT:** 1300 ERGT AU | info@ergt.com.au

**AUTHORITY / REGULATOR**

Nationally Recognised Training (NRT) is regulated by the Australian Skills Quality Authority (ASQA), which is the national regulator for Australia's vocational education and training sector.

**LEARNING OUTCOMES**

The expected learning outcomes for these Nationally

Recognised Training units are:

PUASAR032A Undertake vertical rescue

- Prepare and respond to vertical rescue

- Assess scene

- Establish vertical rescue system

- Perform vertical rescue

- Terminate vertical rescue operations

PUASAR022A Participate in a rescue operation

- Prepare and respond to rescue

- Contribute to a risk assessment at the scene

- Perform rescue

- Conclude rescue operations

**ENROLMENT PRE-REQUISITES**

PUAEME001B Provide emergency care OR;

HLTFA211A Provide basic emergency life support OR equivalent

PUASAR022A Participate in a rescue operation is a pre-requisite for PUASAR032A Undertake vertical rescue.

Trainees must successfully complete

PUASAR022A Participate in a rescue operation (which is

assessed in the first day) before progressing to

PUASAR032A Undertake vertical rescue.

**RECOMMENDED SKILLS & KNOWLEDGE**

In order for ERGT to deliver the training and assessment in the timeframe specified for this course, it is desirable (but not mandatory) that trainees who come to the course are fulltime employees and existing members of an ERT with skills and knowledge as listed below:

- Conduct risk assessments

- Applying casualty handling techniques

- Identifying hazards and applying control measures according to procedures

- Participate in and contribute in a post rescue debrief

**STRUCTURE & ASSESSMENT**

This course is delivered through classroom presentations, group discussion and practical demonstrations and exercises. Trainees will demonstrate their competence through written and practical assessments. Assessments will occur in both the training room and simulated workplace environments.

### CERTIFICATION

Upon successful completion trainees will be issued with Statements of Attainment in:

PUASAR032A Undertake vertical rescue

PUASAR022A Participate in a rescue operation

### SKILLS MAINTENANCE

In alignment with industry expectations and to ensure ongoing competence and capability ERGT recommends skills maintenance be conducted every 2 years.
