BA WORK – BREATHING APPARATUS FOR WORK (AIRLINE)

ERGT Australia's Breathing Apparatus for Work course is focused on the used of breathing apparatus in a work environment. This course develops the skills and knowledge required to operate and maintain breathing apparatus and equipment in an irrespirable atmosphere as defined by the Australian Standard AS/NZS 1715:2009 Selection Use and Maintenance of Respiratory Protective Equipment.

This course is designed for experienced individuals who work with Supplied Air Breathing Apparatus (SABA) in high risk industries.

Locations	Perth, Darwin & Melbourne
Duration	1 Day
Outcomes	Statement of Attainment in:
<i>Please see Certifications section for detail</i>	MSMWHS216 Operate breathing apparatus

**NATIONALLY RECOGNISED
TRAINING**

Authority / Regulator

Nationally Recognised Training is regulated by the Australian Skills Quality Authority (ASQA), which is the national regulator for Australia's vocational education and training sector.

Learning Outcomes

The expected learning outcomes for the Nationally Recognised Training unit MSMWHS216 Operate breathing apparatus are:

- Conduct pre-donning checks and tests on breathing apparatus
- Operate breathing apparatus
- Conclude operations in accordance with procedures

ERGT Recommended Skills & Knowledge

This course is designed for individuals that are in fulltime or part time employment and it is desirable that they attend the course with the following skills and knowledge:

- Company induction training
- Workplace emergency response procedures
- Site emergency response structure and mustering procedures
- Organisational hazard identification and the reporting of hazards
- Risk assessment processes

Additional Requirements

Please read the AS/NZS 1715 Appendix B: Facial Seal of Respirators. Trainees will not be able to meet competency if they do not comply with the requirements for the standard. Please contact ERGT for further clarification if required.

Structure & Assessment

This course is delivered through classroom presentations, group discussions, and practical demonstrations and exercises. Trainees will demonstrate their competence through written and practical assessment in both a training room and simulated workplace environments.

Certification

Upon successful completion trainees will be issued with a Statement of Attainment in: MSMWHS216 Operate breathing apparatus

Skills Maintenance

In alignment with industry expectations and to ensure ongoing competence and capability ERGT recommends skills maintenance be conducted every 2 years.
