## ECS - ENTER CONFINED SPACE

The purpose of ERGT Australia's Enter Confined Space course is to provide personnel with the skills and knowledge to enter confined spaces as part of their usual work routine under a confined space permit. On completion of the course personnel will be able to safely enter a confined space in accordance with the conditions outlined in an issued permit. Personnel working under a permit to work will be able to understand the system, know the limitations of the permit under which they are working and comply with all the requirements of the confined space permit.

This course is designed for individuals who require safe entry to confined spaces under a work permit and for maintaining safety while working in the confined space. These individuals would typically be required to enter confined spaces for any work related purpose, including maintenance, cleaning, inspections or other reasons.

<b>Locations</b>	Perth, Darwin & Melbourne
<b>Duration</b>	2 Days
<b>Outcomes</b>	Statements of Attainment in:
<i>Please see</i>	MSMPER200 Work in accordance with an issued permit
<i>Certifications</i>	MSMPER205 Enter confined space
<i>section for detail</i>	

### Authority / Regulator

The Australian Skills Quality Authority (ASQA) is the national regulator for Nationally Recognised Training delivered by Australia's vocational education and training sector.

### Learning Outcomes

The expected learning outcomes for these Nationally Recognised Training units are:  
MSMPER205 Enter confined space

- Assess confined space for entry
- Use safety equipment and personal protective equipment (PPE)
- Work in accordance with confined space requirements
- Conclude confined space operations in accordance with procedures

MSMPER200 Work in accordance with an issued permit

- Apply for permit
- Identify the scope of the permit
- Prepare for permitted work
- Work in accordance with an issued permit
- Complete permit to work

## **Training Standard Pre-Requisites**

Trainees must be deemed competent in MSMPER200 Work in accordance with an issued permit which is delivered as part of the course on day one before they can continue on and be assessed in MSMPER205 Enter confined space.

## **ERGT Recommended Skills & Knowledge**

In order to complete this training within the course duration, ERGT recommends that trainees should be experienced workers who are in fulltime or part time employment and have completed a vocational level 1 certificate or higher qualification.

They should be able to read, interpret and adhere to company safe working procedures, work permits and other workplace standard operating procedures. The ability to use computerised equipment, communicate effectively with team members in the workplace and complete standard workplace forms is also recommended. Lastly, they should be able to participate in risk assessments to identify hazards and apply control.

## **Structure & Assessment**

This course is delivered through classroom presentations, activities and participant discussion as well as practical components within a simulated workplace environment using specialised equipment. Trainees will demonstrate their competence through direct observation of practical exercises and written assessment.

## **Certification**

Upon successful completion trainees will be issued with Statements of Attainment in:  
MSMPER200 Work in accordance with an issued permit  
MSMPER205 Enter confined space

## **Skills Maintenance**

In alignment with industry expectations and to ensure ongoing competence and capability ERGT recommends skills maintenance be conducted every 2 years.
