T-BOSIET - TROPICAL BASIC OFFSHORE SAFETY INDUCTION & EMERGENCY TRAINING

ERGT Australia's OPITO Tropical Basic Offshore Safety Induction and Emergency Training course covers offshore-specific safety induction, helicopter safety and escape, sea-survival and fire fighting and self-rescue.

This course is essential for personnel who are new to the offshore oil and gas industry. The T-BOSIET course is suitable for warm water locations. Those who are required to travel over cold, or both cold and warm water, are advised to complete the OPITO Basic Offshore Safety Induction and Emergency Training (BOSIET) course.

Locations	Perth, Darwin & Melbourne
Duration	2 Days
Outcomes	Record of Achievement in:
Please see Certifications section for detail	OPITO approved Tropical Basic Offshore Safety Induction & Emergency Training (T-BOSIET) 5501

Authority / Regulator

OPITO is the global, not-for-profit, skills body for the energy industry.

Learning Outcomes

The expected learning outcomes for this course are:

- Identify the generic hazards which are specific to offshore oil and gas installations, potential risks associated with those hazards, and how controls are put in place to eliminate or reduce risks.
- Identify key offshore related safety regulations and explain the basic safety management concepts.
- Demonstrate, in a simulated environment, that they can use the safety equipment, and follow procedures in preparing for, and during helicopter emergencies – with particular focus on escaping from a helicopter following ditching.
- Demonstrate sea survival and first aid techniques.
- Demonstrate that they can effectively use basic firefighting equipment, and practise self-rescue techniques in low visibility situations, to include smoke filled areas.

Please visit www.opito.com for a detailed breakdown of the learning outcomes for this course.

Additional Requirements

A current offshore or industry equivalent medical is required for this course. Please see the Medical Form document on ergt.com.au for a list of accepted medical clearances.

Structure & Assessment

This course is delivered through classroom presentations, group discussion and practical components within a simulated workplace environment. Trainees are required to demonstrate their competence through written assessment and practical exercises.

Certification

On successful completion trainees will be issued with a:

Record of Achievement in OPITO approved Tropical Basic Offshore Safety Induction &

Emergency Training (T-BOSIET) 5501

Personalised T-BOSIET identity card

Revalidation

The OPITO T-BOSIET is valid for 4 years from the date of training. To remain current trainees are required to complete either a Further Offshore Emergency Training (FOET) or Tropical Further Offshore Emergency Training (TFOET) course every 4 years.
