### Structure and Assessment

This course is delivered through classroom presentations, group discussion and practical exercises. Trainees will demonstrate their competence through written and practical assessment.

### Learning Outcomes

The expected learning outcomes for this unit are:

- Prepare for emergency situations
- Identify and assess emergency
- Safely confine emergencies
- Use initial response equipment
- Report emergency response

## **Ongoing Maintenance of skills**

In alignment with industry expectations and to ensure ongoing competence and capability ERGT recommends skills maintenance be conducted every 2 years.

## **Authority / Regulator**

The Australian Skills Quality Authority (ASQA) is the national regulator for Nationally Recognised Training delivered by Australia's vocational education and training sector.

## **ERGT Desired Skills and Knowledge**

It is desirable, but not mandatory, that trainees attend the course with the following skills and knowledge of:

- company inductions
- workplace emergency response procedures
- site emergency response structure and mustering procedure
- organisational hazard identification, risk assessment processes and hazard reporting.

## **Additional Requirements**

A health questionnaire and declaration of fitness will be required at course registration. Please contact ERGT for any concerns regarding completion of practical training and assessment requirements and to discuss options for reasonable adjustments.
